

PROFESSIONAL SUMMARY

Full Stack Developer with **1.3+ years of experience** in building and optimizing web applications using **Next.js and React**. Proficient in JavaScript (ES6+), HTML5, CSS3, Git workflows, CI/CD pipelines, Jest, and React Testing Library. Strong understanding of web performance fundamentals (Core Web Vitals) and accessibility best practices (WCAG/ARIA). Currently pursuing B.Tech in Computer Science & Engineering with CGPA 8.29/10.

TECHNICAL SKILLS

Core Development: Next.js (App Router, Pages Router, Server Components), React.js, JavaScript (ES6+), HTML5, CSS3
Testing & QA: Jest, React Testing Library, Unit Testing, Integration Testing
Version Control & CI/CD: Git, GitHub, Git Workflows, CI/CD Pipelines
Performance & Accessibility: Core Web Vitals (LCP, FID, CLS), Bundle Optimization, Runtime Optimization, WCAG 2.1, ARIA
APIs & Authentication: RESTful APIs, GraphQL, OAuth/OIDC, JWT, Session Management
AI-Assisted Development: GitHub Copilot, Secure Coding Practices, IP/Data-Handling Rules

PROFESSIONAL EXPERIENCE

Full Stack Developer

Savayas Life and Balance Pvt. Ltd. | March 2024 – Present | Satna, MP

- Developed and maintained 2 production web applications (savayasgyoga.com, savayasheal.com) using Next.js and React.
- Built reusable components and patterns for consistent UI/UX across applications to streamline development and align with design guides.
- Implemented automated testing using Jest and React Testing Library to ensure code reliability and quality.
- Optimized application performance focusing on Core Web Vitals (LCP, FID, CLS) through bundle and runtime optimization.
- Applied accessibility best practices (WCAG 2.1, ARIA) for inclusive and standard-compliant user experiences.
- Collaborated using Git workflows and participated in CI/CD pipelines for seamless deployments and releases.
- Integrated frontends with RESTful APIs and implemented authentication patterns (JWT, session management).
- Participated in Agile delivery (sprint planning, standups, demos, retrospectives) with clear estimates and risk visibility.
- Utilized GitHub Copilot for AI-assisted development while applying human verification and secure coding practices.

Key Achievements:

- Successfully deployed 2 live production applications with 99.9% uptime.
- Improved Core Web Vitals scores by 40% through performance optimization.
- Achieved 92% accessibility compliance score by implementing ARIA attributes and semantic HTML.

KEY PROJECTS

HelloMyGym – Gym Management Platform | Live Demo: hellomygym.com

- Developed a mobile-first gym management SaaS platform for Indian gym owners.
- Built dynamic dashboards for attendance tracking, membership renewals, and expense management.
- Implemented responsive UI with modern JavaScript and CSS3.
- Optimized for Core Web Vitals with scores of 90+ for LCP, FID, and CLS.

Savayas Yoga – Wellness Platform | Live: savasygyoga.com

- Designed and developed a responsive wellness platform for yoga class bookings.
- Created reusable React components and established a component library.
- Set up automated testing with Jest and React Testing Library (85%+ coverage).
- Implemented JWT-based authentication for user sessions.

Savayas Heal – Holistic Wellness Platform | Live: savasyheal.com

- Built a content-rich wellness application with blog management.
- Implemented server-side rendering (SSR) for SEO optimization and fast initial load.
- Developed accessible UI following WCAG 2.1 AA standards with proper ARIA labels.
- Optimized images and assets using Next.js Image component.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering

AKS University, Satna, Madhya Pradesh | 2022 – 2026 (Expected) | CGPA: 8.29 / 10

- Relevant Coursework: Data Structures, Algorithms, Web Development, Database Systems
